### **UPCOMING AIR, WASTE, & WATER-RELATED HEARINGS, MEETINGS, & EVENTS**

**Tier II Reporting; Upcoming Changes and Notice of Workshops**-Delaware's EPCRA Reporting Program will be implementing a new version of their online reporting system, TIER II MANAGER™ in January 2014. While the system screens will have a new look and feel, the overall reporting process using the system will be similar to previous years. Step-by-step instructions for reporting within the system will be made available for downloading at (<http://www.dnrec.delaware.gov/SERC/Services/Pages/DownloadFormsorSoftware.aspx>) during the first week of January 2014.

In addition, the U.S. Environmental Protection Agency (EPA) has made changes to the Tier II reporting requirements by adding several data elements and modifying several existing items. A fact sheet providing an overview of the EPA required changes is located at [http://www2.epa.gov/sites/production/files/2013-08/documents/epcra\\_amendments\\_fact\\_sheet\\_2.pdf](http://www2.epa.gov/sites/production/files/2013-08/documents/epcra_amendments_fact_sheet_2.pdf) These changes are effective **January**, which will include the upcoming 2013 reports. The new version of Delaware's online TIER II MANAGER™ system mentioned above will incorporate the EPA modifications, and reports submitted on-line using the new system will comply with the EPA changes.

### **Training Workshops**

A series of free workshops are scheduled to demonstrate the new TIER II MANAGER™ online reporting system, discuss the new data elements added by the U.S. EPA, and review the chemical inventory reporting requirements in general. The workshops will be half-day sessions (3 to 3½ hours), and registration is required. Morning sessions will begin at 9:00am, and afternoon sessions will begin at 1:00pm. Workshop dates/locations are as follows:

**SITE INVESTIGATION AND RESTORATION SECTION** – The Division's Site Investigation and Restoration Section (SIRS) is responsible for the identification, evaluation and remediation of sites in Delaware that have had past releases of hazardous substances. The Section manages the contaminated sites under three major programs in accordance with the Hazardous Substance Cleanup Act (HSCA). The three programs are the Brownfields Development Program, the Voluntary Cleanup Program (VCP) and the HSCA Enforcement Program (for sites requiring enforcement action).

The Brownfields Development Program encourages the cleanup and redevelopment of vacant, abandoned or underutilized properties, which may be contaminated. A party seeking to develop such a property negotiates with SIRS for a Brownfields Development Agreement (BDA) to perform an investigation and, if necessary, a remedial action or remedy, for the purpose of addressing the risks posed by past releases of hazardous substances at these sites. However, a BDA is only available to parties that are not current site owners. The Voluntary Cleanup Program (VCP) Agreement is available to site owners, who want to clean up their sites and are already liable as a potentially responsible party for the site. Proposed and final plans of remedial action are available online at: <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx> under "Announcements." For site-specific information, please see DNREC's Environmental Navigator at <http://www.nav.dnrec.delaware.gov/DEN3>

**PROPOSED PLAN OF REMEDIAL ACTION FOR THE KEMPF STORAGE SITE (DE-1481)**

The Department invites public comment on a proposal to clean up the Kempf Storage Site located at 1101 East Seventh Street and 1220 East Eighth Street in Wilmington. There is currently no proposed redevelopment plan for the site. Details of the Proposed Plan are available at the Wilmington library, at the office of DNREC-SIRS (391 Lukens Drive, New Castle, DE, 19720), or online at <http://www.dnrec.delaware.gov/whs/awm/SIRB/Pages/SIRBPlans.aspx>. The comment period ends on **December 31**.
